

## Workshop on “ICT: A teaching tool for proficient pedagogy”

The ICT (Information and communications technology) enables the teachers learn the newer teaching methods using the digital brain computer out breaking the mundane styles. Thus, the workshop on ICT: A teaching tool for proficient pedagogy” was organised jointly on 21<sup>st</sup> March, 2018 by Shri RamKrishna Seva Mandal and Anand Pharmacy College, Anand. The workshop was sponsored by SSIP, Govt. of Gujarat. The workshop aimed at making an interesting presentation using technology, creating many opportunities for students and teachers to mingle in the classroom and make teaching and learning more effective.

Further, the workshop had the 67 teachers and educators from vivid field as the delegates, hence under the banner of train the trainer acuity, the workshop was targeted to train the teachers. The key focus of workshop was enabling the teachers learn the use of ICT like the MS office power-point presentation, animation software, and other software thereby enhancing the presentation output, breaching the student-teacher gaps.

The function was graced by Dr. Tejal R. Gandhi, Principal, Anand Pharmacy College and Dr. Purvi Shah, Professor and SSIP co-ordinator. In the inaugural speech by Dr. Tejal Gandhi, she talked about the importance of ICT in teaching and learning and briefed the audience about the train the trainer concept.

The first session was delivered by Ms. Jenee R. Christian, Assistant Professor, Department of Quality Assurance, Anand Pharmacy College, Anand. Where she talked about the importance of ICT in teaching and how it can transform the teacher oriented endeavour into learning oriented endeavour. Further she talked about the power-point, animations, google slides, online interaction session with poll everywhere, use of Mendely – free reference manager, and various other software to create animations and recording video.

The second session was taken by Dr. Lalji Baldaniya, Assistant Professor, Head of the Department of Pharmaceutics (B.Pharm.), Anand Pharmacy College, Anand. He talked about the animations and different types of animation. He also highlighted the concept of Flip classroom and how flipping it can motivate the students into an efficient learning. Also, he talked about the basics animation in power point to make the presentation effective, how learning can be enhance by images and videos, creating poster through power point, use of Adobe acrobat etc.

Lastly, after the two session, the workshop concluded, the entire workshop was compared by Ms. Ruby Christian, Assistant Professor, Department of Pharmaceutics, Anand Pharmacy College. And was successful managed by Ms. Hiteksha Panchal, Assistant Professor, Department of Pharmacognosy, Anand Pharmacy College, Anand.
