Summary of Training

(Green Initiative)

October 27, 2023

Working in the lab can be enjoyable, but there are also risks to be aware of. The goal of this training is to familiarize you with the hazards of the lab so that you can get your work done in a timely manner, avoid damaging expensive equipment, and most importantly avoid injuring yourself. The accumulated waste should be first sorted out and separated. For example, dry waste, Wet waste, plastics, paper waste etc., every type of waste should be separated out according to the nature of the waste product.
